## QUALIFICATIONS

The qualifying equipment must be installed in a business served with natural gas from Black Hills Energy. Black Hills Energy uses Air Conditioning, Heating & Refrigeration Institute (AHRI) listings to determine the efficiency of new commercial hot water boilers. Equipment must be certified by AHRI.

## REQUIREMENTS

1. All qualifying equipment must be fully installed and operational and is subject to inspection by Black Hills Energy or an agent of Black Hills Energy choosing.
2. Enclose invoice showing separate figures for equipment, labor and taxes. Rebates are calculated on equipment cost only, not on taxes, labor, unattached material, piping or controls.
3. Enclose all nameplate data and age of equipment being replaced, if applicable.
4. Include boiler efficiency documentation.
5. All required information must be submitted before the rebate can be paid.
6. The rebate application form must be submitted within 90 days of installation or postmarked by December 31, 2021, whichever comes first.

**Equipment installed under warranty replacement does not qualify for the rebate.**

Rebate qualifications and amounts are subject to change. Rebate funds are limited. Completed rebate forms will be processed in the order in which they are received. Black Hills Energy rebate programs may be cancelled or changed at any time.

**This program ends December 31, 2021.**

**Rebates will not be paid if funds are depleted prior to December 31, 2021.**

## APPLICATION CHECKLIST

- Invoice must show the rebate amount deducted from the equipment cost as the "Black Hills Energy Efficient Boiler Rebate."
- Purchaser signature and installation address must be included.
- Invoice must show model number and make.
