

COMMERCIAL HEATING Equipment Rebate

Program dates: January 1, 2021 through December 31, 2021

PLEASE NOTE: This is a program with limited funding.

Applications will be processed on a first-come, first-served basis until funds are depleted. To check the current status of funds, please call 855-350-1563.

To receive your rebate, please submit all requested information, including a copy of the dated invoice from your heating system supplier, along with all requested signatures. The rebate application form must be submitted within 90 days of installation date or within 90 days of connection of natural gas and postmarked by December 31, 2021. See other side for more information or visit Energy-ReadyArkansas.com. Please send completed form to: Energy Ready, P.O. Box 9567 Fayetteville, AR 72702

It is the responsibility of the purchaser to ensure that the program requirements are met. If program requirements are not met, no rebate will be paid.

QUALIFICATIONS

The qualifying equipment must be installed in an Arkansas home or business served with natural gas from Black Hills Energy and must meet the following efficiencies:

TECHNOLOGY	REBATE AMOUNT
Natural gas forced-air furnaces	95% AFUE or higher (\$500 rebate)

Rebate offer applies only to new natural gas furnaces. If the furnace being replaced is electric or is a heat pump, no rebate is available. Black Hills Energy uses Air Conditioning, Heating & Refrigeration Institute listings to determine the efficiency of the equipment.

If sending rebates for multiple accounts or multiple units on one account, please call to check availability of funding.

Trade Allies are only eligible to receive their customer's rebate if the customer has assigned the rebate to the Trade Ally, and there is a discount for the full amount of the rebate shown on the final invoice.

Equipment installed under warranty replacement does not qualify for the rebate.

REQUIREMENTS

Application must be completely filled out with purchaser information, equipment information (including brand, complete model and serial number, installation date and AFUE rating) and installer information. Black Hills Energy is unable to accept applications that do not include all this information. A copy of the dated invoice or sales receipt must accompany the completed rebate application and must include the customer name, unit brand, model and serial numbers and unit cost. It is the responsibility of the purchaser to ensure that the installed equipment qualifies for the rebate. If it does not qualify, no rebate will be paid.

Black Hills Energy reserves the right to inspect the installed equipment.

Rebate qualifications and amounts are subject to change. The rebate application form must be submitted within 90 days of installation date or within 90 days of connection of natural gas and postmarked by December 31, 2021. To avoid delays in rebate processing, please submit your completed paperwork as soon as possible. Any applications with missing or incomplete information can jeopardize the chance of receiving rebate funds. Rebates are awarded on a first-come-first-served basis until funds are depleted.

REBATE DETAILS

Rebate amounts will be issued for equipment installed between January 1, 2021 and December 31, 2021 only. Black Hills Energy issues cash rebates in the form of checks, not utility bill credits. Black Hills Energy is not responsible if the dealer does not provide accurate information on the rebate amount or equipment eligibility. Rebate checks will be mailed within 6-8 weeks.

APPLICATION CHECKLIST

- Dated sales invoice must include customer name, furnace brand, model and serial number and unit cost. If rebate has been assigned to the Trade Ally by the Black Hills Energy customer, the deduction for the rebate must be shown on the invoice.
- Purchaser signature
- Installer signature
- Black Hills Energy account number

Mail completed paperwork to:
