PURCHASER INFORMATION

Purchaser's name _____

Daytime phone () _____

Installation address _____

City/State/ZIP _____

Purchaser email address (for questions on rebate paperwork) _____

Black Hills Energy Account # _____

Type of installation:

- New construction Replacement (failure)
 Replacement (upgrade)

Building type:

- College/University Fast food restaurant
 Full menu restaurant Grocery store
 Health clinic Large office (> 30,000 square feet)
 Lodging Retail School
 Small office (≤ 30,000 square feet)
 Other _____

CUSTOMER SIGNATURE

Purchaser's signature _____

Date _____

EQUIPMENT INSTALLED

- 90% - 94% efficient boiler ≥ 94% efficient boiler
 Burner replacement Boiler reset controls
 Boiler cutout controls Boiler vent damper

NEW EQUIPMENT INFORMATION

(See reverse side for rebate amounts.)

Brand _____

Model # _____

Serial # _____

BTU/Hr. input _____

AFUE % _____

Date of installation _____

OLD EQUIPMENT INFORMATION

(See reverse side for rebate amounts.)

Brand _____

Model # _____

Approximate age _____

QUALIFICATIONS

The qualifying equipment must be installed in a business served with natural gas from Black Hills Energy. Black Hills Energy uses Air Conditioning, Heating & Refrigeration Institute (AHRI) listings to determine the efficiency of new commercial hot water boilers. Equipment must be certified by AHRI.

REQUIREMENTS

1. All qualifying equipment must be fully installed and operational and is subject to inspection by Black Hills Energy or an agent of Black Hills Energy choosing.
2. Enclose invoice showing separate figures for equipment, labor and taxes. Rebates are calculated on equipment cost only, not on taxes, labor, unattached material, piping or controls.
3. Enclose all nameplate data and age of equipment being replaced, if applicable.
4. Include boiler efficiency documentation.
5. All required information must be submitted before the rebate can be paid.
6. The rebate application form must be submitted within 90 days of installation or postmarked by December 31, 2020, whichever comes first.

Equipment installed under warranty replacement does not qualify for the rebate.

Rebate qualifications and amounts are subject to change. Rebate funds are limited. Completed rebate forms will be processed in the order in which they are received. Black Hills Energy rebate programs may be cancelled or changed at any time.

This program ends December 31, 2020.

Rebates will not be paid if funds are depleted prior to December 31, 2020.

APPLICATION CHECKLIST

- Invoice must show the rebate amount deducted from the equipment cost as the "Black Hills Energy Efficient Boiler Rebate."
- Purchaser signature and installation address must be included.
- Invoice must show model number and make.

OPTIONS TO SUBMIT REBATE

1. Email (preferred) - Corey.McAnally@cleareresult.com
2. Mail - Black Hills Energy Arkansas Rebates
C/O CLEAResult
3425 N. Futrall Dr., Ste. 101
Fayetteville, AR 72702

PROGRAM INCENTIVES

Boiler incentives

This list describes the rebates that are available to customers who are eligible to participate in the program.

MEASURE	INCENTIVE AMOUNT	INCENTIVE DETAILS	MEASURE DESCRIPTION
90% - 94% Efficient boiler	\$1,400 MMBTU/Hr input	Hot water boilers	Commercial comfort heating boilers, between 100,000 BTU - 4 MMBTU
≥ 94% Efficient boiler	\$2,000 MMBTU/Hr input	Hot water boilers	Commercial comfort heating boilers, between 100,000 BTU - 4 MMBTU
Burner replacement	\$1,000 MMBTU/Hr input	Up to 25 percent of the equipment cost and burner installation	Fully modulating or six-step modulation burners only - not eligible for new boilers
Boiler reset controls	\$150 per system	Not to exceed the equipment cost	Assumes 3.8 percent annual gas savings from controls
Boiler cutout controls	\$150 per system	Not to exceed the equipment cost	Assumes 1.7 percent annual gas savings from cutout controls
Boiler vent damper	\$400 per system	Not to exceed the equipment cost	Assumes 7 percent annual gas savings from vent damper
